TERMS OF THE DAILY DEMOCRAT TO THE COUNTRY.

To our Country Patrons Please to register your letters containing re-nittances, as we hold ourselves responsible for all bases to us when lefters are registered. We are sible for losses in the mails, should the

occur, unless letters are registered. Our city election is coming on, in which many worthy gentiemen will present themselves, or be presented, for office. W need not say that the growth of Louisville within the jast few years calls upon ail who are interested to select the best men for the office; this is too apparent to need a notice With our prosperity our expenditures were

more than doubled within the last few years. The first and most important point is to as ect for office those who are vitally interested in the prosperity of the city, for its domestic. iternal control within the corporate limits so see that its streets are kept in good con lition, its wharves well cared for and that acive anthority belonging to a well considered dministrative policy be exercised.

The safety an I protection of citizens is on of the highest duties; to have an active, effi ient police, sufficiently numerous for the orlivances of the Conneil and Board of Aldermen, to be efficiently and well carried ont. No one is more zesious for economy in mn picipal affrirs than ourselves; yet it is known hat, as excellent as have been our police arrangements, and faithfully as the officers have performed their arduons duties, for the want of mere numbers we have not been able to execute as perfectly as in former times that igilance which made ours a model metropo is in the West.

We take into consideration at the same time he great charge that has been and is taking lace around us daily, hourly; yet for some cause, less has been done than could be done. Another and important hint is the cordion of our streets. It is shameful. It is,

essier riding, less destructive to vehicles to pass over the vilest corduroy road, than to ass over very many of the streets of Louisville. In places where the bottoms have failer ou!, a vehicle goes down to the bottom of the riginal ponds and swamps upon which the city is built; when the bottoms have not fallen ont, a wheel goes down three or four feet, and the occupants feel themselves joited out as if cast from a catspult.

We do not presume to say where the faul es, not having examined; but it is somewhere mong the lower silurian rocks. We hope that Mayor, Conneil and Street Inspectors will, in recommending other reforms, see it

we cannot mend our ways. It seems Mr. Lincoln has found son ne in the person of the Hon. Hugh McCuloch, of ludiana, who is willing to take upon

his Atiantian soniders the enormous burthen of the Treasury. It is comforting to know how many modern Atlance there are in the country willing to make broad their shoulders to take the ouns of public effices, though this one office was or a time left vacant. Why, we don't know, niess Mr Lincoln thinght that whoever he choses to put in it from his party would ateal, and so left the p'ace a vacancy. He is said to be a gentleman of integrity, who will be guided by what he deems pest for the public interest. As he has no as a partisan, we believe him man of business, and as such wish him suc-

General Lopez replies, confessing that his ympathies are for the noble cause of the outh, and extends to Colonel Pierson hissinger friendship. He adds:

"Being piaced in command of this military ine, under his Majesty the Emperor Max

Soms of the press are commenting rather sharply on the above. We see no capae for it. It is very natural that Maximilien's Govern ment should be excessively friendly to the rebels. We have no right to expect favor from it. We have been sumbbing the new Em peror and his bran-new empire very offensvely, and if one of hie officers does a little friendly turn to our enemies, it is only huma:

We like that point, too, about organizing raids on Mexican soil sgainst the Confederacy It's wrong and ridiculous, and if Lope atches anybody at it, just hand them over to the tender merciee of Mr. Davis Let him ask an equivalent, if the rebels find anybody organizing raids against Maximilian's empire to hand them over.

The tears of the contractors have been arreled up, as it were, into printer's ink, and thence, through the rollers and press, been given to the world in the shape of a pamphiet wherein is duly recorded their manifold lose by reason of the rise in prices of labor and material. If they can sweep out the offsi and corruption in the office-holders in that city, the minor matter of the Augean stables of the atrests will be by comparison an easy tack.

KILLING OF BILL DAVIDSON .- We learn that on Sunday a lot of Kentucky cavalry, scouting through the country, came across a gang of guerrilias ied by Bili Davidson and Magruder, a short distance from Cioverport. A fight a once enemed, which issted but a few mirutes efore the guerrillas fied in disorder. Bill Davidson, their leader, was shot through the body, above the hips and through the arm After he feli from his borse his men picked him up, and rode off with him. About three miles further he fell from his horse again and was carried into the residence of Mr. Newman, where he died. Magruder was also wounded but managed to make his escape The guerrillas in this State are in a bad fix now. They find no rest for the Federals, and

GUERRILLAS -A hand of guerrilles, under the leadership of Lum. Cox, of Kenton county, dashed into Crittenden, Grant county, on Saturday, and stole a number of horses. They were so hotly pursued, however, by the Home Guards, that they were compelled to relinquish their booty.

Run Over.-Yesterday morning a man named James Hughes jumped from the train at Seymour, while it was in motion. He feil npon the track, the wheels passing over his left leg, nearly cutting it off, and his body was

bruised badly. He caunot live. A party of cavalry started out yesterday to look after the "gentlemen" who rowed" a pair of fine horses from Capt. Fosses and forgot to return them. If they will re turn with the horses they will learn some

While the Sicinway Piane is justly celebrated for its sweetness of tone, the Chickering Piano for its brillian and the Prings and other Pianos for their power, the Weber Piano combines all these desirable qualities in a babbest degree, and is the only known instrument of which R may with truth be said that in it are nepted the creat qualities of a perfect instrument, viz: GRAF POWER, SWEETHES OF TOKE and BAILLIANSY, with an ELASTOCKE, PRESENT OF TOKE and DEALSHIPS.

FINANCE AND TRADE

OFFICE OF THE LOUISVILLE DEMOCRAT. & WEDNESDAY EVENING. March 1st, 1886. Nothing has occurred since our last to materially hange the seneral features of the market for four. The ty bakers are the principal purchasers at present, but nd are very offish about prices. Superflua cannot be old at over \$1 60 to \$3 75 the latter rate for choice cording to quality and reputation of brand. Shippers e still excluded from the market, there not being 11 ff. clean march between the prices here and those at the fast, to admit of shipments being made. There was atter an improved feeling on the part of holders of dime samples of red wheat to-day, and at the close to have been had under \$1.78 to \$1.90. Bayers, however, as a reneral thing refused to follow up the advance and and the close to the contract of once asked, and comparatively little has

notice doing. The grocery market is rather firmer, with a better deand, and the sales to-day were larger than on any pro-lous day for some time. The particulars of the sales, seether with the prices, will be found in our review

The provision trade was devoid of animation to-day here is a very firm feeling on the part of holders of all ticles, but huyers remain offish, and decline taking old to any extent. San Francisco. Feb. 28. SAN FRANCISCO, Feb. 28.

The steamship John L. Stephens, from Mazition, brings seventy five thousand dollars in treasure and a quantity of silver ore. Mezatlon is entirely blocked np. No cargoes are being taken to the interior, except at the risk of life. Trade is at a stand still. The Mexican guerrilias are very bold, and the French shoot all they catch. Lately the French burned eight villages because the people had not given notice of the approach of the guerrillas. A French officer who brought in twenty-four guerrillas as prisoners was severely reprimanded for not having shot them at the time of their capture.

The war news from the interior and lower coast is very nurcliable and uncontradictory. SAN FRANCISCO, Feb. 28 The President sent to the the Senate to-day a message inclosing the ophilon and finding of the Court of Irquiry, substituted by him in the Petersburg mine explosion. The ophilon is signed by Gen. Hapcock, President of the court. After narrating the circumstances of the assault and failure, it ascribed to the following named officers:

First—Gen. Burnside, in not obeying the ordets of the commanding general in the formation of his assaulting column; in not preparing his parapet and abattis for the passage of his troops; and in not employing energetic officers to lead the columns with working parties; yet the Court is satisfied Gen. Burnside bad retrieve measures which would insure success.

Second—Brig. Gen. Ledlow, in failing to oush forward his troops promptly and in blocking up the system for the passage of troops ordered to follow:

Third—Brig. Gen. Pierce for want of readiness for the assault and not going with his troops, but remaining in bomb proof.

Fonth—Goloned T. E. Bless, 7th Rhode Island, commanding a brigade, in remaining behind with one regiment in position where

Great depression prevailed in commercial and financial circles on the 15th, under the influence of the news of peace.

On the 16th the announcement that the paace conference was a failure, received by the Hibernian was published in the morning papers, and caused a raction.
